**Transform operations**

**Enhance productivity**

**Deliver business value**

To deliver reliable, scalable, and cost-efficient services that enable organizations to streamline operations, improve productivity, and maximize return on investment (ROI).

**Streamline operations**

**Improve productivity**

**Maximize ROI**

# ONAS Transformative Potential

01

## Enterprise Resource Planning

AI-enabled ERP combines traditional ERP systems (Finance, Supply Chain, HR, Manufacturing, Procurement, Projects, etc.) with Artificial Intelligence (AI), Machine Learning (ML), and Generative AI to automate processes, improve decision-making, and predict future outcomes.

03

## Managed IT and Operations

AI-driven Managed IT & Operations combines AI, Automation, Cloud, and Analytics to proactively manage, monitor, and optimize IT infrastructure, applications, and business operations.

02

## Digital Transformation

AI-driven Digital Transformation is the strategic use of Artificial Intelligence, Data, Cloud, and Automation to modernize business processes, improve customer experiences, and enable faster, smarter decision-making across the enterprise.

04

## Java & Digital Technologies , EdTech & Staffing Services

AI-enabled Java Technologies & Staffing Services combine modern Java engineering, cloud-native development, and AI-driven talent management to deliver scalable applications and the right-skilled resources faster and more efficiently.

# Enterprise Resource Planning

## Enterprise Resource Planning

### 01 **SAP**

Comprehensive ERP for large enterprises, enabling end-to-end business process integration across finance, supply chain, manufacturing, and analytics.

### 02 **Oracle (EBS & Fusion Cloud)**

Cloud-based ERP offering advanced financial management, procurement, project management, and AI-driven insights.

### 03 **Salesforce**

Customer-centric platform integrating CRM with ERP capabilities for sales, service, analytics, and digital engagement.

### 04 **NetSuite**

Cloud-native ERP designed for growing and mid-sized organizations, providing real-time financials and operational visibility.

### 05 **ServiceNow**

Digital workflow platform that streamlines IT, HR, and enterprise service management through automation and AI.

### 06 **Workday**

ERP focused on Finance and Human Capital Management (HCM), delivering real-time insights, workforce planning, and analytics.

# Our Unique Value Proposition

## Certified Expertise

Highly skilled team of certified professionals with deep functional and technical specialization

## Regional MEA Experience

Extensive experience across Middle East and African markets, with strong knowledge of local compliance and regulations

## Proven Track Record

Successful delivery of ERP projects across Oracle and SAP platforms, spanning multiple industries and business verticals

## Flexible Engagement Models

Fixed-price, resource augmentation, project-based, hybrid, and managed services models to suit client needs

## Quality & Governance

Robust PMO practices, documentation standards, and governance frameworks ensure transparency and accountability

## Automation-Driven Delivery

Leveraging proprietary tools, scripts, and accelerators to reduce implementation time and operational costs

# Ethical Considerations

## 01 Data Privacy

Protecting user data and ensuring responsible use of personal information is essential.

## 03 Transparency and Explainability

AI decisions should be transparent and explainable, allowing users to understand how they were made.

## 02 Bias and Fairness

AI algorithms should be fair and unbiased, avoiding discrimination or perpetuating existing inequalities.

## 04 Security and Safety

AI systems should be secure and safe, preventing malicious attacks or unintended consequences.

# Expert Team & Resources

## Consultants

Junior , Mid Level , High level experts across the applications

## Solution Architects

Enterprise architecture and platform strategy specialists

## Integration Specialists

OIC, SOA, APIs, and CPI/PI integration experts

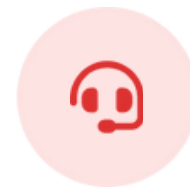

## Cloud & Database Experts

Cloud and database management specialists

## Project Managers

PMP, Agile, and Scrum-certified professionals with ERP expertise

## Support Engineers

Functional and technical managed services

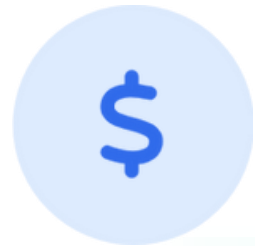

## Our Team Strengths

-  Certification across multiple platforms
-  Regional MEA experience with local compliance knowledge
-  Proven track record across diverse industries
-  Dedicated Quality Assurance consultants

# Flexible Engagement Models

To accommodate diverse operational and financial requirements, we offer multiple engagement models

## Fixed Price / Outcome-Based

- ✓ Defined scope and deliverables
- ✓ Predictable costs
- ✓ Clear project milestones
- ✓ Rigorous change management

Best for: Well-defined projects

## Resource Augmentation

- ✓ Flexible staffing
- ✓ Short or long-term needs
- ✓ Expert resource allocation
- ✓ Scalable team size

Best for: Project acceleration

## Managed Services Subscriptions

- ✓ Comprehensive support
- ✓ 24×7 monitoring & support environments
- ✓ SLA-governed service delivery

Best for: Ongoing operations

# Proven Delivery Methodology

Our delivery approach is based on a proven methodology aligned with best practices, ensuring structured, efficient, and predictable project outcomes.

## Discovery & Assessment

Analyze business processes, technical requirements, and organizational readiness

## Solution Design

Define architecture, global templates, and ERP blueprints

## Build & Configuration

System setup, custom development, and integrations

## Data Migration & Integrations

Seamless migration from legacy systems and ERP platforms

## Testing & Quality Assurance

Functional, technical, and performance validation

## User Training & Change Management

Enable adoption, process awareness, and stakeholder readiness

## Go-Live Enablement

Transition planning, cutover, and launch support

## Post-Go-Live Support

Stabilization, managed services, and continuous optimization

## Methodology Benefits

Predictable outcomes

Mitigated risks

Consistent delivery quality

Maximized ROI

# Why Partner **With Us**

Choose a partner that delivers Services excellence, compliance, and faster time-to-value

## Deep ERP Expertise

Certified professionals with extensive Oracle & SAP knowledge

## MEA Experience

Strong track record in localizations and statutory regulations

## Proven Methodologies

Structured approaches for efficient ERP project delivery

## Flexible Models

Fixed-price, hybrid, and managed services options

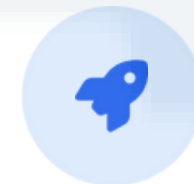

## Robust Governance

Strong PMO and transparent project controls

## 24x7 Support

Real-time dashboards and proactive issue resolution

## Rapid Deployment

Accelerators for faster time-to-value realization
